Hi Mark, I just wanted to let you know how fantastic the adjustable bench is that you have made for me. As a welder myself, i can fully vouch for the quality and soundness for this piece of essential gym equipment. I would highly recommend this bench for any gym, or serious trainer who wants an item that is 100% quality made, and will fully stand the test of time. It would be the most solid bench i have ever seen in some 20 plus years of lifting. I would fully endorse any of Marks products due to their quality and structural soundness. Cheers Scott....
