After using the Powerlifting Competition Racks that Chris purchased, Jack recently purchased a Flat Bench. This is what he had to say

-  
" G'day Mark!! Just dropping you a message to let you know I'm loving the flat bench!! Thanks again! Jack "

I Bought a Flat Bench from Mark (Bench only no rack) a few months ago and it is of the highest quality construction. The bench is very grippy, Stable and the pad doesnt compress under heavy loads like most benches. I would recommend the product for anyone looking for a bench that can stand up to whatever you throw at it.
